Not sure when I (we) will be done... I think (b) (5)

(1) In the Review tab, under Tracking options, choose Simple Markup. Much easier to read, and sometime edit, in this mode. I tend to go back and forth between "All Markup" and "Simple Markup" depending on what I'm doing.

(2) If we need to accept changes, I believe we can always get back to earlier versions of the document if necessary.

Mike,

Can you give me a sense of when you will stop working on this?

I would like to clean up the document, by accepting or declining some of the many changes. It is getting hard to read in track changes. But, I would prefer to do that when I know you are mostly done.

Thanks, Mark

I was referring to the Excel spreadsheet that was emailed to us 4/1. I'll find and forward the email with the Excel spreadsheet attached. I wasn't sure if this was the document with links with to specific CWA 404 relevant documents that we had requested. Please give it a look and let me know if the spreadsheet provided is along the lines of what we requested, and if that affects what we are saying in our comment letter, or if we should specifically comment on the spreadsheet in the comment letter. I still think (b) (5) S.

Mike

Mike,

We say this below in the document:

EPA asked for that file several times and it was sent to EPA on April 1, 2019, although it appears there may be links to documents unrelated to the CWA Section 404 permit review.

They have sent us a few other things, but I am not aware that they ever sent us the links document. Have you seen it?

Thanks, Mark
